

Key Learning in Music: Years 3 and 4

Performing		Listening	Creating			Knowledge and Understanding		
 Sing songs, speak chants and rhymes in unison and two parts, with clear diction, control of pitch, a sense of phrase and musical expression. Play tuned and untuned instruments with control and rhythmic accuracy. Practise, rehearse and present performances with an awareness of the audience. 		 Listen with attention to a range of high quality live and recorded music, to detail and to internalise and recall sounds with increasing aural memory. Experience how the combined musical elements of pitch, duration, dynamics, tempo, timbre, texture and silence can be organised within musical structures (for example, ostinato) and used to communicate different moods and effects. Experience how music is produced in different vays (for example, through the use of different resources, including ICT) and described through relevant established and invented notations. Know how time and place can influence the way music is created, performed and heard (for example, the effect of occasion and venue). 		 Improvise and develop rhythmic and melodic material when performing. Explore, choose, combine and organise musical ideas within musical structures. 			 Analyse and compare sounds. Explore and explain their own ideas and feelings about music using movement, dance, expressive language and musical vocabulary. Improve their own and others' work in relation to its intended effect. Use and understand staff and other musical notations. Develop an understanding of the history of music.
