

Home Learning Year 5/6

Half Term: Spring 1

Maths:

- Ongoing basic skills rehearsal: regular times tables, number bonds practise.
- Weekly online Maths games (see list of websites on the reverse of this sheet).
- Weekly SATs style questions (this will increase for Year 6 as we get closer to SATs). These will be marked in class on a Wednesday.

English:

- Daily reading with an adult- sign planner. 5 reads evidenced= reward.
- Weekly spellings.
- Weekly SATs style questions (this will increase for Year 6 as we get closer to SATs). These will be marked in class on a Wednesday.

Please record in your child's planner when they have completed any home learning.

Topic:

Choose 3 to complete over this **half term**. Bring in anything you wish to show/share for celebration afternoon the last Friday of half term!

Using any materials available create a 3D Volcanic scene- can you incorporate an electric circuit?!	Research Electricity- present findings in any way you like- powerpoint, poster, written report, speech...
Write a biography/prepare a speech on Thomas Edison.	Choose to present your own life's journey in any way you like- include rites of passage (religious or not), turning points...
Create a nature journal- record findings and observations as Winter turns into Spring...	Research Volcanoes over History- can you create a timeline of when Volcanic eruptions have happened? How has this affected civilisations over time..?
