

'Living Life to its Fullest; Making A Difference Along the Way'

09.01.2023

As part of your child's home learning, they may be asked to access the Curriculum Visions in order to carry out research or additional reading.

Curriculum Visions is a tool that we have access to through our new curriculum using CUSP. It has a vast array of resources in all subject areas, which children can access for home learning and other aspects of their education.

We are fortunate to have this wonderful facility to hand to use in class and for children to access at home. To access Curriculum Visions at home please follow the link below and sign in with the following details:

www.curriculumvisions.com

Username: **Rivington/1**

Password: **Newton**

We ask that this password not be shared with anyone outside of the school, as it is something that the school pays for and is only allowed to be accessed by school staff and children from Rivington Foundation Primary School. We hope that this invaluable resource will help aid the children with their home learning and that they enjoy using what is available to them.

To further support you in helping your child to use the site the first thing parents should do is to watch the intro video. This is to be found on the bottom left of the home screen. It gives a feel for the core of what Curriculum Visions is about. The link for this is:

<https://www.curriculumvisions.com/indexIntroVideo.html>

You may also want to watch the website tour - the link for this is also on the home screen. But here is a direct link, too:

<https://www.curriculumvisions.com/indexTourVideo.html>

Yours sincerely,

Sarah Annette

Headteacher
