This term's Seven Wonder is Positivity:

You are BRAVER
than you believe,
STRONGER
than you seem and
SMARTER
than you think.

What Parents and Carers Need to Know about Fortnite Chapter 4

If you know any young gamers, you'll almost certainly be familiar with Fortnite. It's one of the most popular video games on the planet – up alongside other mega-hits like Minecraft, Roblox and Call of Duty in terms of its sheer number of fiercely dedicated players. Fortnite currently has more than 400 million devotees worldwide – around 25 million of whom play it every day.

Given Fortnite's relatively young user-base, though (as many as one in four pre-teens are reported to have played the game, despite its PEGI 12 age rating), it's prudent not

to conflate immense popularity with absolute safety. Our #WakeUpWednesday guide assesses the latest version for potential pitfalls that parents and carers of young Fortnite fans should be aware of.

In the guide you'll find a number of potential risks such as compulsive playing, audio chat with other gamers and in-game spending.

Free School Meals/ Pupil Premium - All children in Reception, Year 1 and Year 2 automatically qualify for Universal Free School meals. However, children in the infants and the juniors may qualify for free school meals because you are in receipt of certain benefits, in which case you need to register your eligibility. If you are eligible your child could qualify for Pupil Premium funding from the Government which will come into school to improve pupil attainment or provide additional opportunities. If you require further information, please do not hesitate to contact the office.

NUT FREE SCHOOL Please remember that we are a nut-free school and **NO** nuts should be in sandwiches, snacks, etc. This is so important as we have several children with nut allergies. Please do not send **ANY** nuts into school for the safety of our children. Thank you.
